

Speco Technologies Pumps Up Resolution

Amityville, NY - October 22, 2007

Speco Technologies' rolls out the **latest** Digital Video Recorder with the **highest functionality in a most robust package** for 2007. The affordable **PC Pro family of DVRs** is perfect for all applications where **high frame rate and high resolution** with advanced features are required such as casinos, NTS (National Traffic Systems), municipal government, schools, law enforcement, airports and MTA (mass transit).

The newest PC-based DVR offers **unprecedented frame rate/resolution** in its price class with up to 720 x 480 @ 240 fps in 8 and 16 channel models.

Other PC Pro DVR Features include:

- **Enhanced compression and security file encryption** - surpasses MJPEG and MPEG-4 for image quality and compressed size
- **Free DDNS** - using Speco server
- **8 - 16 Channel loopouts**
- Advanced programmable motion detection recording.
- Up to 64 remote connections using client software
- 8 sensor inputs and 4 alarm outputs
- Full and configurable password security access
- **POS option** available (compatible with Dresser Wayne, Gilbarco, MSI, Ruby, Aloha, Squirrel and Micros)

Knowledgeable customer support people are in place to help the customers who purchase Speco Technologies' products and a **technical support group** is available to assist with designing a system, installations and other professional advice. ***The future in CCTV is now.***
