**Kaba Introduces The New E-Plex 3000 Series Narrow Stile Lock**

Winston-Salem, NC (June 26, 2007)

Kaba Access Control is pleased to introduce the E-Plex 3000 Series Narrow Stile Lock to its E-Plex brand of electronic access control. The E-Plex 3000 is an electronic pushbutton lock for narrow stile aluminum glass doors.

The E-Plex 3000 is designed to retrofit inside trim for Adams Rite locks 1850 1950, 4070, 4510, 4520, 4530, 4710, 4720, 4730, 4900, 4920AN, MS 1850S and MS 1950S Series (Not Included).

The E-Plex 3000 has 300 access codes and a 9,000-event audit trail, that also records key override usage. It can be programmed at the lock keypad or with optional Microsoft Excel based software. Installation is quick and easy with no wiring to or through the door - eliminating the risk of damaged or pinched wires. The battery pack, consisting of four (4) AA batteries, is located in the tamper proof base of the housing and provides 180,000 cycles.

The lock is available in Standard Satin Chrome or optional Dark Bronze with Satin Brass accents. The lock comes with a 3-year warranty. It is part of the E-Plex brand of electronic access control locks that offer "A Solution for Every Door ... And Every Budget."
